

Basis Translational Research Workshop

Thursday October 25, 2012

08:50-17:00 Basis Translational Research Workshop

**Chairs: Martine Extermann (USA)
Graham Pawelec (DE)
Laura Niedernhofer (USA)**

08:50-09:00 Introduction: Welcome and Goals of the Day

09:00-10:15 Round table 1: Cell senescence and cancer

09:00-09:10 Introduction
09:10-09:20 Cellular senescence as a tumor suppressor
09:20-09:30 Telomeres/p53 interaction in aging and cancer
09:30-09:40 Tumor suppressor mechanisms in long-lived animal models
09:45-10:15 Q&A with panel and audience

Moderator: Martine Extermann (USA)
Martine Extermann (USA) & Laura Niedernhofer (USA)
Fabrizio d'Adda di Fagagna (IT)
Sandy Chang (USA)
Andrei Seluanov (USA)

10:15-10:30 Break

10:30-12:00 Round table 2: Immunosenescence and cancer

10:30-10:40 Introduction
10:40-10:50 NK cells in aging and cancer
10:50-11:00 Cancer vaccines in the elderly
11:00-11:10 Can we make a senescent immunity effective against cancer?
11:15-11:45 Q&A with panel and audience
11:45-12:00 Wrap-up discussion

Moderator: Graham Pawelec (DE)
Graham Pawelec (DE)
Rafael Solana (ES)
Claudia Gravekamp (USA)
Laura Haynes (USA)

12:00-13:30 Lunch

13:30-14:30 Small group discussions

1. What molecules/mechanisms are the most promising/closest to translation to clinic?
2. How to manage and share large databases integrating results from different centers?
3. Application of systems biology.
4. Regulatory issues regarding clinical trials in the elderly. Are aged animal models of any use?
5. What are the barriers to translation? What is rate limiting for research progress?
6. What are the best sources of funding (agencies/study sections) to hunt for?

14:30-15:00 Each group to present a 5 minute summary of their discussion

15:00-15:15 Break

15:15-16:45 Interactive session with clinical researchers

How can we use the mTOR inhibitor trials to learn about aging and its interaction with cancer?

15:15-15:35 The basic research status and questions
15:35-15:55 The clinical research status and questions
15:55-16:15 Challenge to the speakers: suggest practical ideas to each other
16:15-16:45 Dialogue with the audience

Moderator: Martine Extermann (USA)
Randy Strong (US)
Peter Schmid (UK)

16:45-17:00 Summary remarks and key action points of the workshop

**Martine Extermann (USA)
Graham Pawelec (DE)**

12th Annual
SIOG Meeting

Nursing Task Force

Thursday October 25, 2012

13:00-13:30	Welcome & Introduction of Attendees	Chair: Aaron Bogue (USA)
13:30-14:30	The changing demographics and the role of the Geriatric Oncology Nurse: a review of the role and challenges in each country	Peggy Burhenn (USA) Karis Cheng (SE) Maggie Clarkson (USA) Sonia Joannette (CA) Cindy Kenis (BE) Liv Sørbye (NO)
14:30-15:30	Discussion of development of nursing guidelines/international recommendations: 1. Instruments 2. Scoring Guidelines 3. Best Practices	Team discussion
16:00-16:30	Research priorities for geriatric oncology nurses	Team discussion
16:30-17:00	Future plans for SIOG Nursing Task Force	Team discussion

Thursday October 25, 2012

19:00-20:00 SIOG General Assembly

SIOG – Day 1

Friday October 26, 2012

07:45-08:30	Meet the Professors Elderly patients, RCTs and Assessment Tools Developing a geriatric oncology research program at your institution	Lesley Fallowfield (UK) & Hy Muss (USA) Etienne Brain (FR) & Hans Wildiers (BE)
08:30-08:45	Introduction & Welcome Message	Riccardo Audisio (UK)
08:45-10:00	Updates Session	Arti Hurria (USA)
08:45-09:00	Surgery	Barbara van Leeuwen (NL)
09:00-09:15	Geriatrics	Siri Kristjansson (NO)
09:15-09:30	Medical oncology	Etienne Brain (FR)
09:30-09:45	Radiation oncology	Ian Kunkler (UK)
09:45-10:00	Nursing	Aaron Begue (USA)
10:00-11:00	Sanofi – Prostate Satellite Symposium	Matti Aapro (CH)
10:00-10:15	Optimizing the management of older men with prostate cancer: call to action	Matti Aapro (CH)
10:15-10:30	Radical prostatectomy for older men with localized prostate cancer	Steven Joniau (BE)
10:30-10:45	Radiation therapy for older men with localized prostate cancer	Simon Hughes (CA)
10:45-11:00	Management of advanced prostate cancer in older men: the new landscape and concluding remarks	Matti Aapro (CH)
11:00-11:30	Coffee Break & Poster Viewing	
11:30-13:00	Macmillan Cancer Support – Satellite Symposium	Hazel Brodie (UK)
11:30-11:35	Welcome & Introduction	Hazel Brodie (UK)
11:35-11:45	Older people's experience of cancer care	Diane Andrewes (UK)
11:45-11:55	The role of the Clinical Nurse Specialist	Jackie Bridges (UK)
11:55-12:05	The chemotherapy enhanced support programme	Alistair Ring (UK)
12:05-12:15	Q&A	
12:15-12:25	Comprehensive geriatric assessment and cancer treatment	Danielle Harari (UK)
12:25-12:35	Promoting age equality in cancer services	Kate Parker (UK)
12:35-12:45	The role of the Geriatrician in cancer care	Margot Gosney (UK)
12:45-12:55	Q&A	
12:55-13:00	Closing remarks	Joanne Rule (UK)
13:00-13:45	Lunch & Poster Viewing	
Parallel session A1		
13:45-15:15	Treating People with Dementia	Margot Gosney (UK) & Sylvie Perrin (UK)
13:45-14:05	A geriatrician working in a breast clinic	Thom Robinson (UK)
14:05-14:25	Cancer and chemotherapy in patients with dementia	Luke Solomons (UK)
14:25-14:45	Cancer treatment and the risk of delirium	Jim George (UK)
14:45-15:05	Ensuring a safe treatment: general principles/nurse input	Margot Gosney (UK)
15:05-15:15	Q&A	All
Parallel session A2		
13:45-15:15	Big Lessons Learned on Breast Cancer	Laura Biganzoli (IT) & Catherine Terret (FR)
13:45-14:00	Why we cannot do without epidemiologists	Adri Voogd (NL)
14:00-14:15	Breast cancers: how many diseases?	Joseph Gligorov (FR)
14:15-14:30	Targeting Her2: how? How long for?	Robert Leonard (UK)
14:30-14:45	Overcoming endocrine resistance	Laura Biganzoli (IT)
14:45-15:00	Adjuvant chemotherapy in older breast cancer patients: how to decide?	Hans Wildiers (BE)
15:00-15:15	Q&A	

12th Annual
SIOG Meeting

Friday October 26, 2012

Parallel session B1

15:15-16:15 Melanoma

- 15:15-15:30 Epidemiology of melanoma in older patients
- 15:30-15:45 UK Cancer Registry Data
- 15:45-16:00 Targeted therapy
- 16:00-16:15 Trials in elderly melanoma patients

Riccardo Audisio (UK)

- Maryska Janssen (NL)
- Alistair Ring (UK)
- Paul Lorigan (UK)
- James Larkin (UK)

Parallel session B2

15:15-16:15 Selecting the Best Treatment for Older Lung Cancer Patients

- 15:15-15:30 Lung cancer screening in high risk populations
- 15:30-15:45 Stage III NSCLC: evidence-based RT for older patients?
- 15:45-16:00 Systemic treatment for elderly patients with NSCLC – what is the evidence?
- 16:00-16:15 Q&A

Round Table

- Michael Jaklitsch (USA)
- Corinne Faivre-Finn (UK)
- Yvonne J. Summers (UK)
- All

- 16:15-16:45 Coffee Break & Poster Viewing

16:45-17:25 Proffered Paper Session 1

- 16:45-16:55 Biological characteristics of triple negative early operable primary breast cancer in older women in comparison with their younger counterparts Kwok-Leung Cheung (UK)
- 16:55-17:05 Breast cancer survivors: A comprehensive examination of multiple primary malignancies (MPM) comparing risk in younger and older women over 20 years of follow-up Kerri Clough-Gorr (USA)
- 17:05-17:15 Appetite for risk in an international comparative survey of older consumers of oncology services Roxanne Ferdinand (UK)
- 17:15-17:25 Predicting decline in functionality and chemotherapy toxicity: a prospective multicentre study Cindy Kenis (BE)

Parallel session C1

17:30-18:30 Pain Management on Older Cancer Patients

- 17:30-17:45 How to assess pain in a multi-morbid patient
- 17:45-18:00 What's new in the pharmacological approach?
- 18:00-18:15 How to treat breakthrough pain in the elderly?
- 18:15-18:30 Nursing issues

Walter Gianni (IT) & Christopher Steer (AU)

- Giovanni Gambassi (IT)
- Walter Gianni (IT)
- Raffaele Madaio (IT)
- Meghan Routt (USA)

Parallel session C2

17:30-18:30 Caring for Carers

- 17:30-17:45 Epidemiology of care giving to elderly cancer patients
- 17:45-18:00 Ethics of caregiving for elderly cancer patients
- 18:00-18:15 Communication with elderly cancer patients & their caregivers
- 18:15-18:30 Funding health and social services for older people

Lodovico Balducci (USA) & Antonella Surbone (USA)

- Lodovico Balducci (USA)
- Antonella Surbone (USA)
- Lazzarro Repetto (IT)
- Barbara Hanratty (UK)

Parallel session D1

18:30-19:30 Nurse Session

- 18:30-18:45 Symptom assessment & management in GO
- 18:45-19:00 Spiritual care of the older oncology patient
- 19:00-19:15 Educating nurses new to geriatric oncology-sharing best practices
- 19:15-19:30 Making geriatric assessment concise and useful

Aaron Begue (USA) & Annie Young (UK)

- Karis Cheng (SE)
- Liv Sørbye (NO)
- Sonia Joannette (CA)
- Maggie Clarkson (USA)

Parallel session D2

18:30-19:30 Nutritional Issues

- 18:30-18:50 Screening for malnutrition
- 18:50-19:10 Adjuvant nutritional support
- 19:10-19:30 Tailoring nutritional support

Federico Bozzetti (IT)

- Zeno Stanga (CH)
- Paula Ravasco (PT)
- Federico Bozzetti (IT)

- 20:00-22:00 Course Dinner

SIOG – Day 2

Saturday October 27, 2012

07:30-08:15	Meet the Professors	
07:30-08:15	Career Development in Geriatric Oncology – Publication, Promotion	Arti Hurria (USA) & Arash Naeim (USA)
07:30-08:15	How to Implement CGA in Daily Practice	Catherine Terret (FR) & Martine Extermann (USA)
08:15-08:55	Proffered Paper Session 2	Ulrich Wedding (DE)
08:15-08:25	Impact of differences in treatment strategy on relative survival of elderly patients with operable, hormone receptor positive breast cancer	Mandy Kiderlen (NL)
08:25-08:35	a novel physical activity intervention using Wii-Fit in older prostate cancer patients on Androgen deprivation therapy: A RCT	Saleha Sajid (USA)
08:35-08:45	Utilising existing community-based supportive care and aged care resources for older patients with cancer – updated results of the Care Coordination in the Older Adult with Cancer (CCOAC) project	Christopher Steer (AU)
08:45-08:55	Factors associated with elderly patients' perception of cancer services responsiveness	Dominique Tremblay (CA)
09:00-10:00	Muscle, Cancer and Aging	Martine Extermann (USA) & Pierre Soubeyran (FR)
09:00-09:15	Sarcopenia in cancer and aging: are the mechanisms the same?	Ioannis Gioulbasanis (GR)
09:15-09:30	Falls in older cancer patients	Janine Overcash (USA)
09:30-09:45	Reversing muscle loss: exercise	Heidi Klepin (USA)
09:45-10:00	Reversing muscle loss: pharmacologic interventions	Martine Extermann (USA)
10:00-10:30	Coffee Break & Poster Viewing	
Parallel session F1		
10:30-11:45	Haematological Malignancies	Andrew Pettitt (UK) & Reinhard Stauder (AT)
10:30-10:45	Diffuse large B-cell lymphoma	Paul Fields (UK)
10:45-11:00	Multiple myeloma	Ulrich Wedding (DE)
11:00-11:15	Palliative chemotherapy is not the best choice	Alessandra Tucci (IT)
11:15-11:30	Palliative care for acute leukemia patients	Liv Sørbye (NO)
11:30-11:45	Q&A	All
Parallel session F2		
10:30-12:15	Geriatric Oncology Viewed Large	Malcolm Reed (UK) & Maruscha de Vries (NL)
10:30-10:45	Management of chemotherapy toxicities	Annie Young (UK)
10:45-11:00	Surgical treatment decisions for older patients; the influence of tumour characteristics, patient health and choice	Katrina Lavelle (UK)
11:00-11:15	Developing geriatric oncology in low and middle income countries: what should we do first?	Ricardo Teixeira (BR)
11:15-11:30	Developing geriatric oncology in low and middle income countries: what should we do first?	Sayed Hussain (BD)
11:30-11:45	Recent results from the Early Breast Cancer Trialists' Collaborative Group	Sarah C. Darby (UK)
11:50-12:15	Molecular assays in breast cancer: how useful for the elderly?	Nigel Bundred (UK)
12:15-13:00	Lunch & Poster Viewing	

Saturday October 27, 2012

Parallel session H1

13:00-14:45 CGA, Frailty, Interventions Updates

Jugdeep Dhesi (UK) & Siri Kristjansson (NO)

- 13:00-13:20 Screening tools update
- 13:20-13:40 Definitions of frailty: how should they guide cancer treatment?
- 13:40-14:00 CPEX in clinical practice
- 14:00-14:20 Impact of oncogeriatric interventions on cancer treatment and outcomes
- 14:20-14:40 Improving outcomes in elective surgery
- 14:40-14:45 Q&A

Cindy Kenis (BE)
 Gilbert Zulian (CH)
 Sandy Jack (UK)
 Pascal Chaibi (FR)
 David Shipway (UK)

Parallel session H2

13:00-14:45 Pelvic Malignancies in Older Patients

Helen Boyle (FR) & Somasundar Ponnandai (USA)

- 13:00-13:15 How to treat in-situ prostate cancer
- 13:15-13:30 Surgical excision and reconstruction for bladder cancer
- 13:30-13:45 New drugs for older patients?
- 13:45-14:00 Radiotherapy for rectal cancer
- 14:00-14:15 Ovarian cancer
- 14:30-14:45 Q&A

Paul Cathcart (UK)
 Massimo Maffezzini (IT)
 Helen Boyle (FR)
 Robert Glynn-Jones (UK)
 Stu Lichtman (USA)

- 14:45-15:15 Coffee Break & Poster Viewing

Parallel session I1

15:15-16:15 Reports from SIOG Task Forces

Christopher Steer (AU) & Arash Naeim (USA)

- 15:15-15:30 Nutrition
- 15:30-15:45 Radiation Oncology
- 15:45-16:00 Anaesthesiology
- 16:00-16:15 Haematological malignancies

Federico Bozzetti (IT)
 Ian Kunkler (UK)
 Maren Schmidt (DE)
 Reinhard Stauder (AT)

Parallel session I2

15:15-16:15 Putting Research into Practice

Hazel Brodie (UK) & Joanne Rule (UK)

- 15:15-15:30 The Older People's Pilots
- 15:30-15:45 What do we know about age, treatment rates and decision making in the UK?
- 15:45-16:00 Practical barriers to accessing cancer care
- 16:00-16:15 Talking to the public and persuading politicians

Hazel Brodie (UK)
 Joanne Rule (UK)
 Diane Andrewes (UK)
 Maggie Alexander (UK)

16:15-17:00 Presidential Session

Riccardo Audisio (UK)

- Paul Calabresi Award Lecture
- BJ Kennedy Poster Award
- Sandoz Young Oncologist Travel Awards
- Presidential talk
- Farewell

Arti Hurria (USA)
