

# Scientific Programme

## Friday, November 4, 2011

<b>08:00-08:45</b>	<b>Meet the Professor: Dosing &amp; toxicity management (case-based discussion)</b>	Lodovico Balducci, Catherine Terret
<b>09:00-09:15</b>	<b>Welcome and opening</b>	Etienne Brain, Stuart Lichtman
<b>09:15-10:05</b>	<b>Session I: Updates</b>	<i>Chair:</i> Matti Aapro
09:15-09:25	Surgery	Riccardo Audisio
09:25-09:35	Radiation oncology	Ian Kunkler
09:35-09:45	Medical oncology	Arti Hurria
09:45-09:55	Geriatrics	Olivier Saint-Jean
09:55-10:05	Q&A/discussion	All
<b>10:05-10:45</b>	<b>Session II: Geriatric oncology in the real world or in daily practice (round table)</b>	<i>Chair:</i> Catherine Terret
10:05-10:15	Cancer work-up for the geriatrician	Catherine Terret
10:15-10:25	How much geriatrics can an oncologist do?	Michele Basche
10:25-10:35	Geriatric assessment in private and public setting: how does it work?	Frederique Retornaz
10:35-10:45	Q&A/discussion	All
10:45-11:15	Coffee break / poster viewing	
<b>11:15-12:00</b>	<b>Session III: Tough to treat tumours in elderly</b>	<i>Chair:</i> Martine Extermann
11:15-11:25	Sarcomas	Michael Leahy
11:25-11:35	CNS	Jean-Yves Delattre
11:35-11:45	Pancreatic cancer: how far can we go?	Jean-Luc Raoul
11:45-11:55	Hepato-biliary surgery: who benefits?	Joost van der Sijp
11:55-12:00	Q&A/discussion	All
12:00-12:30	Lunch + poster viewing	
<b>12:30-14:00</b>	<b>Satellite symposium Hospira: Should age define oncology treatment?</b>	<i>Chair:</i> Matti Aapro
12.30-12:40	Chair welcome	Matti Aapro
12.40-13:00	How old is too old?	Reinhard Stauder
13.00-13:25	Considering comorbidities in the elderly	Lazarro Repetto
13.25-13:50	Selecting chemotherapy in the elderly: the role of supportive care	Stuart Lichtman
13.50-14:00	Panel discussion	All
<b>14:00-14:50</b>	<b>Parallel session IV A: GU cancer</b>	<i>Chair:</i> Lodovico Balducci
14:00-14:15	Robotic oncologic surgery in the elderly	Vincent Laudone
14:15-14:30	Targeted therapies in renal cell carcinoma	Stéphane Oudard
14:30-14:45	Prostate in the elderly: what role for new agents?	Supriya Mohile
14:45-14:50	Q&A/discussion	All
<b>14:00-14:50</b>	<b>Parallel session IV B: Biology of ageing and cancer</b>	<i>Chair:</i> Hans Wildiers
14:00-14:15	Immunosenescence and ageing	Tamas Fulop
14:15-14:30	Ageing, NK cells and response to cancer vaccines	Claudia Gravekamp
14:30-14:45	Telomeres and ageing	Claire Léger-Falandry
14:45-14:50	Q&A/discussion	All

## Friday, November 4, 2011

<b>14:50-15:50</b>	<b>Parallel session V A: Lung &amp; head and neck tumours</b>	<i>Chair:</i> Arash Naeim
14:50-15:00	Assessing an elderly with dyspnea	Hervé Le Caer
15:00-15:10	Appropriate surgery for early lung cancer	Michael Jaklitsch
15:10-15:20	Adjuvant chemotherapy & targeted therapies: what role in the elderly?	Aminah Jatoi
15:20-15:30	Curative XRT for early stage lung cancer	Suresh Senan
15:30-15:40	Which older HN patients are legitimate for EGFR inhibitors and how?	Joel Guigay
15:40-15:50	Q&A/discussion	All
<b>14:50-15:50</b>	<b>Parallel session V B: Haematological malignancies</b>	<i>Chair:</i> Pierre Soubeyran
14:50-15:00	Is FCR the standard therapy for older cancer patients with CLL?	Véronique Leblond
15:00-15:10	MDS/MPN, prognosis and treatment	Reinhard Stauder
15:10-15:20	Low grade lymphomas: where do the new therapies fit?	Vicki Morrison
15:20-15:30	When should we use intensive chemotherapy versus hypomethylating agents in older AML patients?	Ulrich Wedding
15:30-15:40	Myeloma	Xavier Leleu
15:40-15:50	Q&A/discussion	All
15:50-16:15	Tea break	
<b>16:15-18:00</b>	<b>Proffered paper session 1</b>	<i>Chairs:</i> Etienne Brain, Riccardo Audisio
16:15-16:20	Introduction	Etienne Brain, Riccardo Audisio
16:20-16:30	Usefulness of a systematic geriatric screening in older cancer patients: a multicentric study in Belgium	Cindy Kenis
16:30-16:40	Identification of biomarkers associated to the frailty phenotype in elderly breast cancer patients using a metabolomics approach	Lucia Fratino
16:40-16:50	Self-rated health and walking ability predicts 10-year mortality in older women with breast cancer	Jessica Eng
16:50-17:00	Could the combined test "VES-13 + (max - G8)" represent an interesting alternative screening tool for identification of potential vulnerable elderly head and neck cancer patients?	Lies Pottel
17:00-17:10	Reversibility of cognitive impairment in elderly patients treated with chemotherapy	María José Molina Garrido
17:10-17:20	Hypofractionated adjuvant radiotherapy in elderly with breast cancer: experience in a single institution	Annamaria Cerrotta
17:20-17:30	Radionuclide therapy in the palliation of painful metastases in elderly patients	Alain Pecking
17:30-17:40	A Pilot Study of the Evaluation of QOL in Women Following Robotic Surgery for Endometrial Cancer	Francine Gaba Idiamey
17:40-17:50	Cancer-Specific Geriatric Assessment (C-SGA): The relative importance of deficits in individual assessment domains on cancer outcomes	Kerri Clough-Gorr
17.50-18:00	Resume	Etienne Brain, Riccardo Audisio
<b>18:15-18:45</b>	<b>SIOP general assembly</b>	

# Scientific Programme

## Saturday, November 5, 2011

<b>07:30-08:00</b>	<b>Meet the Professor: Career &amp; publications in geriatric oncology</b>	<i>Chairs:</i> Hans Wildiers, Harvey Cohen
<b>08:00-09:00</b>	<b>Morning session: Educational/funding opportunities in geriatric oncology and National organizations</b>	<i>Chairs:</i> Martine Extermann, Hyman Muss
08:00-08:05	Introduction	Martine Extermann
08:05-08:15	US resources, SIOG/ASCO	Arash Naeim, Hyman Muss
08:15-08:25	European resources and EORTC	Hans Wildiers
08:25-08:35	Global resources	Chris Steer
08:35-08:45	SoFOG and the French connection	Hervé Curé
08:45-08:55	Recommendations (NCCN, SIOG, SoFOG, etc.)	Etienne Brain
08:55-09:00	Q&A/discussion	All
<b>09:00-09:50</b>	<b>Session VI : Breast cancer</b>	<i>Chair:</i> Etienne Brain
09:00-09:10	Do elderly BC patients want to be screened?	Daniel Serin
09:10-09:20	Can new prognostic tools help us to design adjuvant treatment in elderly?	Etienne Brain
09:20-09:30	Optimizing treatment of triple negative breast cancer in the older woman	Hans Wildiers
09:30-09:40	What is the role of targeted therapies in metastatic disease?	Hyman Muss
09:40-09:50	Q&A/discussion	All
09:50-10:30	Coffee break + poster viewing	
<b>10:30-11:00</b>	<b>Session VII: Invited lecturer: Systems approaches: A Copernican revolution in the cancer-centric universe</b>	Stefano Bonassi
<b>11:00-12:40</b>	<b>Session VIII: Geriatric assessment, frailty and QoL</b>	<i>Chairs:</i> Harvey Cohen & Gilles Freyer
11:00-11:10	Definitions/biology of frailty	Harvey Cohen
11:10-11:20	Surgical assessment	Barbara van Leeuwen
11:20-11:30	GFI	Hans Nortier
11:30-11:40	G8	Pierre Soubeyran
11:40-11:45	Q&A / discussion	All
11:45-11:55	CARG	Arti Hurria
11:55-12:05	The CRASH score	Martine Extermann
12:05-12:15	OLD program	Elisabeth Carola
12:15-12:20	Q&A / discussion	All
12:20-12:30	QOL after treatment: can older patients return to active life after treatment?	Maryska Janssen
12:30-12:40	Summary: How do we use these data	Lodovico Balducci

## Saturday, November 5, 2011

<b>12:45-13:45</b>	<b>Satellite symposium Roche: The role of targeted and anti-angiogenic agents in elderly breast cancer patients</b>	<i>Chair:</i> Etienne Brain
	Welcome	Etienne Brain
	How do geriatricians and oncologists work together?	Gilles Freyer
	Tools and scales: do it yourself or collaborate?	
	Are there optimal chemotherapy regimen and targeted treatments for older women with breast cancer?	Etienne Brain
	How to make sure that optimally designed strategies are adequately delivered and monitored: issues on compliance and quality of life?	Martine Extermann
<b>13:45-14:15</b>	Lunch & Poster viewing	
<b>14:15-15:00</b>	<b>Parallel session IX A : Digestive cancers</b>	<i>Chair:</i> Emmanuel Mity
14:15-14:25	Gastric cancer: how strong can curative intent treatment be in elderly	Caio Rocha Lima
14:25-14:35	Liver cancer and liver metastases: new techniques for elderly	Nicola de' Liguori Carino
14:35-14:45	Neuroendocrine tumors in the elderly	Emmanuel Mity
14:45-14:55	Systemic treatment of colorectal cancer in the elderly: an update	Gunnar Folprecht
14:55-15:00	Q&A/discussion	All
<b>14:15-15:00</b>	<b>Parallel session IX B: Ovarian cancer</b>	<i>Chair:</i> Stuart Lichtman
14:15-14:25	Timing and extent of surgery in the elderly	Vivian von Gruenigen
14:25-14:35	Chemo & targeted agents? GOG series	Stuart Lichtman
14:35-14:45	Relapsed ovarian cancer	Hervé Curé
14:45-15:00	Q&A/discussion	All
<b>15:00-15:40</b>	<b>Proffered paper session 2</b>	<i>Chairs:</i> Stuart Lichtman & Martine Extermann
15:00-15:10	Reasons for low accrual of elderly patients with metastatic breast cancer in the OMEGA study of the Dutch Breast cancer Trialists' Group (BOOG)	Marije Hamaker
15:10-15:20	Clinical Trial Efficacy vs. Real World Effectiveness of Cisplatin and Etoposide in the Care of Elderly Medicare Patients with Extensive Stage Small Cell Lung Cancer	Elizabeth Lamont
15:20-15:30	Symptom burden and quality of life in elderly patients in the first year of the post-cancer treatment	Karis K.F. Cheng
15:30-15:40	Cancer in Nursing Home: a lack of care	Giuseppe Colloca
<b>15:45-16:45</b>	<b>Closures</b>	Riccardo Audisio & Martine Extermann
	Calabresi award lecture & BJ Kennedy poster award	
	Presidential talk, welcome to SIOG 2012, conclusions	Riccardo Audisio
<b>16:45-18:00</b>	<b>Farewell Reception offered by Amgen</b>
